Programming & Data: SQL | Python | R | Databricks | Snowflake | ETL/ELT Pipelines | REST APIs

Visualization & BI: Looker (LookML) | Tableau | Power BI | Google Data Studio | Adobe Analytics | GA4 | Mixpanel

Paid Media Platforms: Meta Ads (Facebook/Instagram) | Google Ads (Search, Shopping, YouTube) | TikTok Ads | LinkedIn Ads

Modeling & Measurement: Attribution Modeling (MTA) | Marketing Mix Modeling (MMM) | Incrementality Testing | A/B Testing | Forecasting | Excel (Advanced)

CRM & Lifecycle: SFMC | CleverTap | Klaviyo | CRM Integration | Salesforce

WORK EXPERIENCE

Senior Marketing Analyst

Sept. 2025–Present
Dallas, TX

Dave and Buster's, Inc.

- Led the Marketing Analytics function by building a performance portfolio consolidating channel-level CAC, revenue, traffic, and loyalty attribution KPIs into Power BI dashboards; partnered with marketing leadership on weekly reviews, accelerating decision-making by 30%.
- Owned end-to-end campaign and creative performance analysis through a closeout framework linking promotional exposure to sales and funnel conversion, improving promotion effectiveness by ~10–15%.
- Guided Marketing Mix Modeling (MMM) across a \$12M Q4 budget, analyzing channel efficiency and spend allocation across Meta and TikTok to shift investment toward high-performing digital channels, improving marginal ROAS by ~8% within 50 days.
- Established GA4 tagging and measurement standards for the Main Event sub-brand, integrating analytics into Databricks and improving event tracking accuracy by ~30%.
- Spearheaded web analytics reporting using Adobe Analytics and GA4; built standardized cross-channel performance dashboards, reducing ad hoc reporting burden by 25%.
- Integrated SFMC CRM lifecycle data into Databricks and delivered unified Power BI dashboards across owned channels, cutting reporting turnaround by 40% and improving visibility into retention, email performance, and engagement KPIs.

Marketing Analyst

Jul. 2023–May 2024
Remote

HealthifyMe Wellness

- Owned end-to-end MMM and Multi-Touch Attribution (MTA) modeling for a \$1.2M/month paid media budget using Python and R; optimized CAC and cross-platform spend allocation across Meta, Google Ads, and LinkedIn, improving ROI by 10%.
- Automated CRM data pipelines for CleverTap, unifying customer email, lifecycle, and behavioral data to enable audience segmentation and personalized retention journeys for 2M+ users.
- Led automation of performance dashboards using SQL, Python, Tableau, and Excel; provided marketing leadership with clear, fast access to channel and campaign insights, reducing reporting time by 60%.
- Supported pricing elasticity and creative/listing performance analysis on Amazon and D2C e-commerce channels using SQL; ran A/B tests on listing optimizations that drove 15% MoM sales uplift.

Data Analyst

Apr. 2022–Jul. 2023
Bengaluru, India

Gameskraft Technologies

- Built executive dashboards in Tableau for a \$30M portfolio; delivered channel-level performance analytics, CAC tracking, and KPI visualizations to cross-functional marketing and operations teams.
- Designed A/B and creative testing frameworks for campaigns using RFM-based audience segmentation, producing statistically significant CTR uplift (1.5x) and 4% retention improvement in high-value cohorts.
- Developed revenue forecasting and profitability models using SQL and Excel; surfaced insights that drove strategy adjustments yielding ~\$15K incremental revenue within 3 months.
- Analyzed campaign attribution and CAC trends using Multi-Touch Attribution (MTA) to optimize ad spend by 5%; implemented funnel interventions improving conversion by 3% and reducing recovery time by 7%.

INTERNSHIP EXPERIENCE

Data Analyst

Jan. 2025–Jul. 2025
Buffalo, NY

Buffalo Go Green Inc.

- Engineered a scalable database schema and integrated REST API endpoints to streamline data pipelines, improving data accessibility for 3+ teams and eliminating 50% of manual data interventions.
- Designed Power BI dashboards for sales, CRM (Salesforce), and operational KPIs, enabling faster stakeholder decision-making and reducing manual reporting.

EDUCATION

University at Buffalo, The State University of New York Jun. 2025
Master of Science in Management Information Systems (GPA: 3.9/4.0)
